

Tony DaCosta, Vice President of Operations

Profile

Tony DaCosta, Vice President of Operations, has 20+ years' experience in the Construction Industry. He brings to Turnstone extensive knowledge and experience in Project Management of large scale projects, allowing us to expand our services to our clients, and strengthening the core of who we are.

Tony began his education in Architecture and soon discovered that he had a great passion to build. After receiving his Bachelor of Science in Construction Management from Roger Williams University, Tony entered the industry in the fast paced, ever demanding world of retail construction, traveling all over the country, servicing clients in 36 various states. Setting his roots in New Hampshire in 1999 he worked for one of the largest Construction Management firms in the State for 15 years.

Tony has managed projects up to \$39M in size. His experience touches on all types, sizes and complexities of projects. Owners are extremely satisfied with his ingenuity and thoughtfulness and he is very well-respected by the subcontractors that work with him.

Tony's greatest attributes include his ability to think through challenges with ease, but with careful consideration of all factors before making a decision; his ability to handle multiple tasks simultaneously; and his ability to keep organized and keep the project on track.
